Mobile Skills Trainings

Vientiane, 26 September 2017

Mr. Khanthong Inthachack,

Liaison Officer and Project Manager TVET Project DVV International

Content

- Idea of the project
- Partners of the project
- Overview on Mobile Skills Trainings
- Participants in 2015
- Suggestions to enlarge the program in the future

Idea of the project

- The idea was developed in consultation with GIZ, DVET and DVV international in 2010
- The idea is to start a special initiative: to use the available capacity IVET schools also for mobile skills training
- IVET centers are newly built or upgraded vocational schools, covering a wide range of subjects for the formal and non-formal VET system
- MST courses were implemented in villages Ban Sam Sang (Three Builds)
- Selection of villages and training topics were done in close cooperation with PESS and DESB
- Annual budget 2015: 19,742€ in total → 1,233€ per course

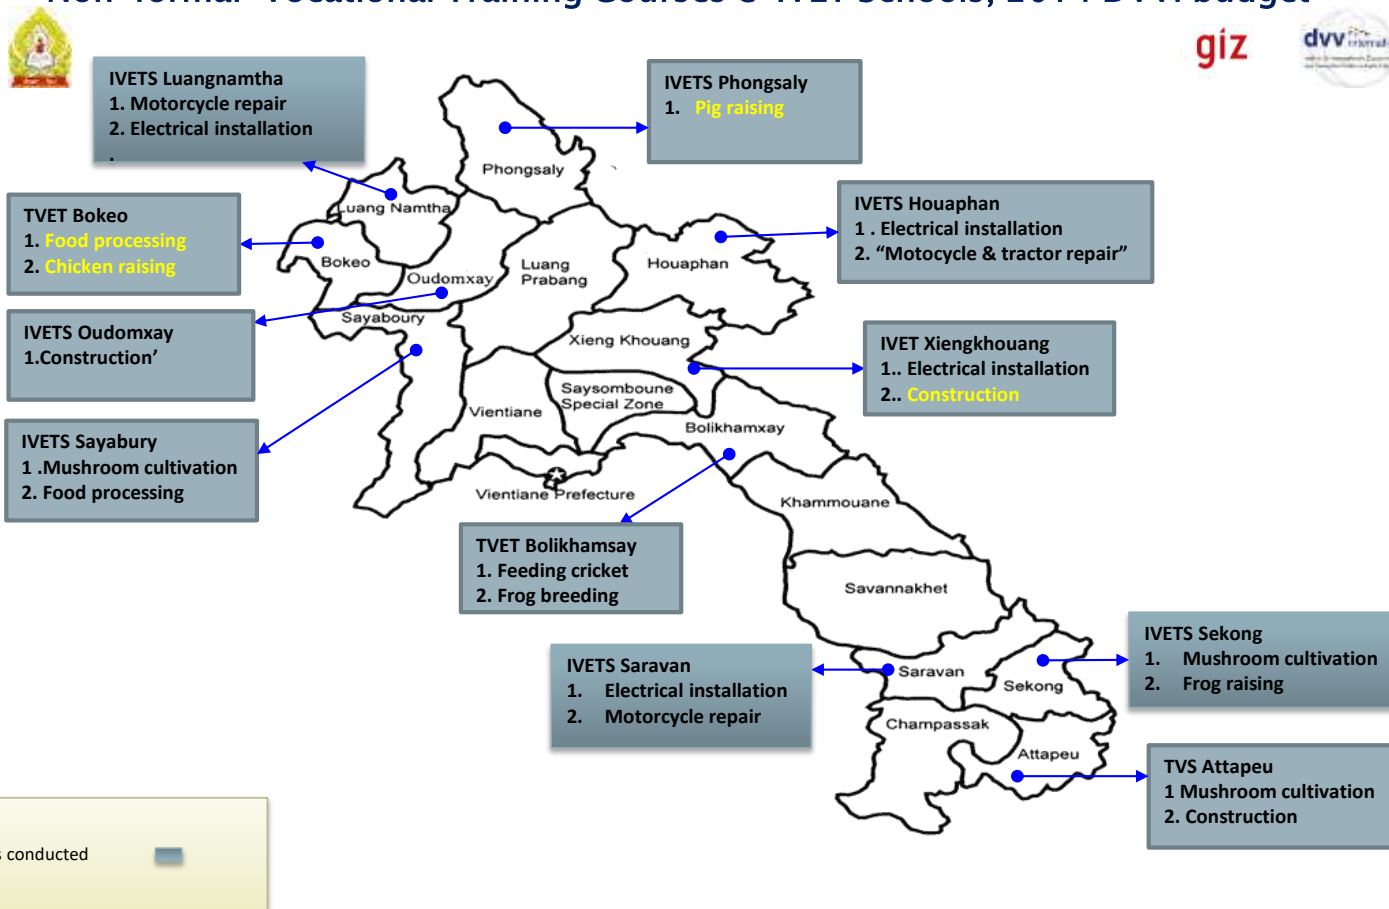

The project management

- Management from DTVE, VELA and DVVI agree an budget and send information letter to the IVET schools
- IVET schools coordinate with PESS, DESB and village head to prepare proposal and select topic and participants
- Proposals send to DTVE for approval
- VELA and DVVI approve
- Budget send to IVET school by VELA and DVVI
- Training implemented
- Financial and narrative reporting by IVET school to DTVE, VELA and DVVI

Partners of the project in 2015

Non-formal Vocational Training Courses @ IVET Schools, 2014 DVVi budget

Overview on Mobile Skills Training Courses 2010 - 2015

Year	Number of activities	Number of participants			Total expenditure (Euro)	Partner
		m	f	total		
2010	2 Training courses 1 needs assessment	0	20	35	9.872,98	HDME
2011	12 training courses 5 tracer study activities	956	864	1820	28.026,70	HRDME
2012	11 training courses	119	50	171	20.724,21	HDME
2013	14 training courses	221	103	305	19.034,10	HRDME
2014	16 training courses	259	137	396	18.601,98	HRDME
2015	13 training courses	185	80	265	17557,57	VELA / IVETS
Grand total		1740	1254	2992	113 817,54	

Overview on Non-Formal Vocational Training Courses 2015

No.	Activity (Subject)	Duration (days)	Trainees	Gender		Remark
				Male	Female

Participants of NFT courses 2015

Gender

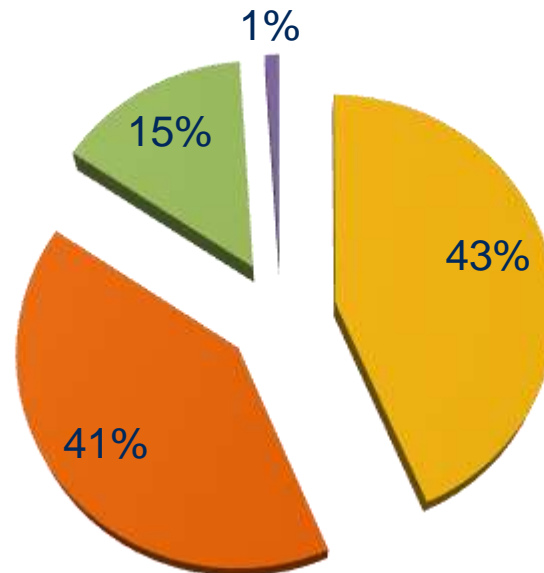

Age of participants

Evaluation of participants of NFT courses 2015

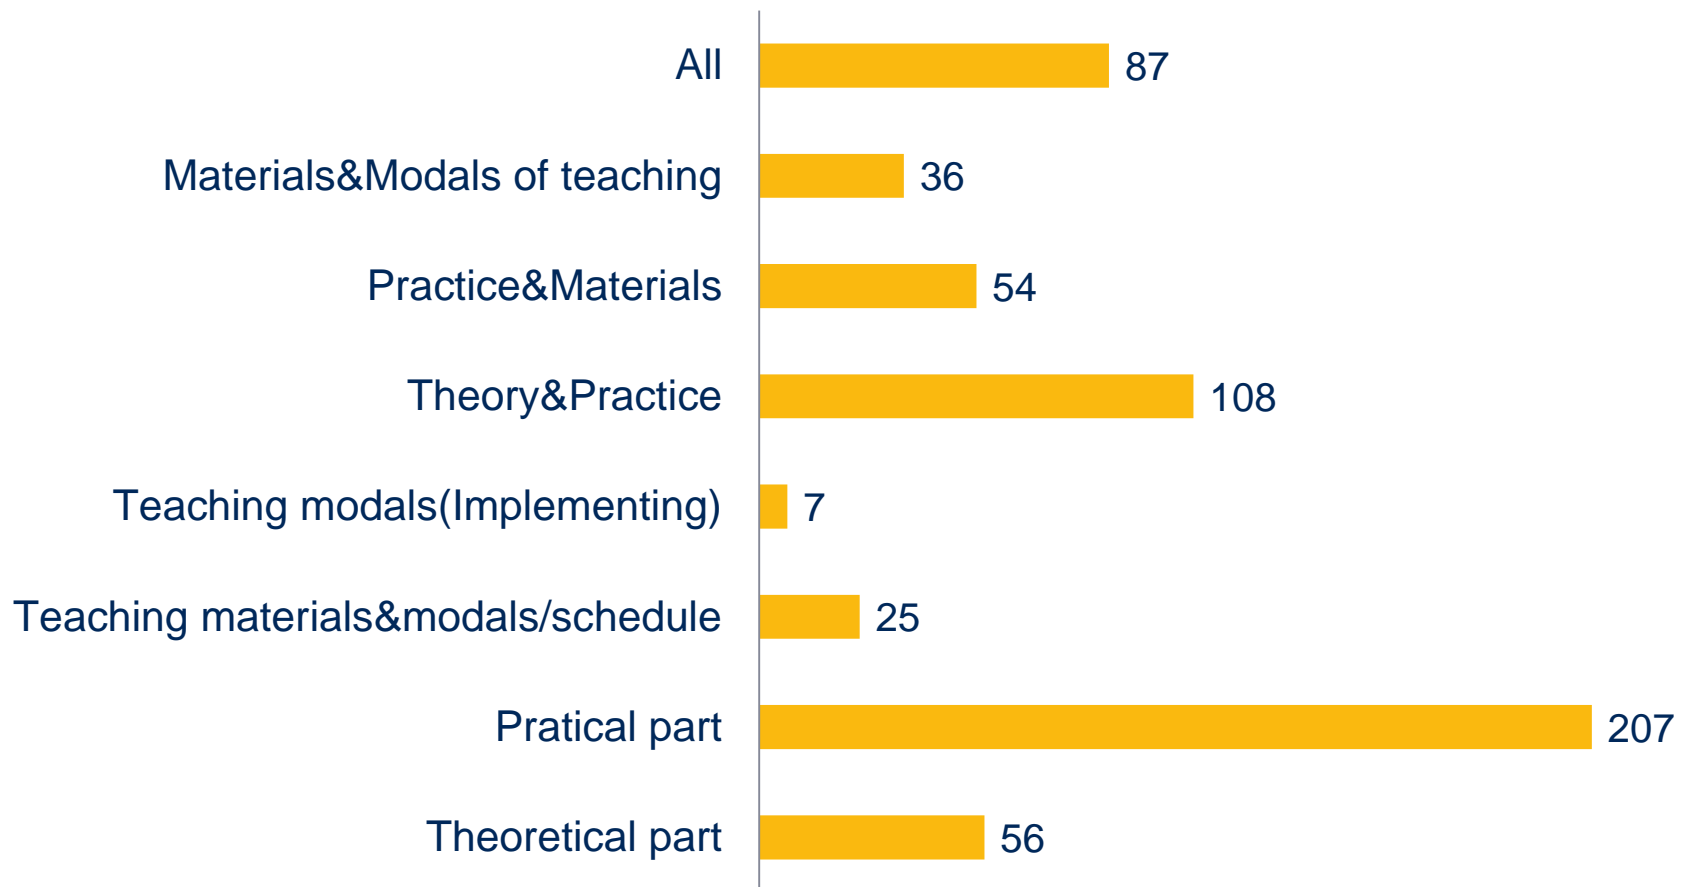

„In how far did the training course meet your expectations?“

■ Very good ■ Good ■ Moderate ■ Partial ■ No

Evaluation of participants of NFT courses 2015

„What has helped you on actual training course at the most?“

Suggestions to enlarge the project in the future

- During **2015, 16 courses** in a variety of subjects attracted a total number of **375 participants**
 - Compared to the needs of the people and the potential of IVET centers, this number is too little
 - How can the project be extended and integrated into the existing VET system?
- The analysis of data already showed good results of the project and possibilities of future development through higher investments
 - However, we felt that a careful Tracer Study was needed to receive reliable data about the outcome
 - Estimated cost: 52,6€ per person for a one-week course,
1,233€ in total for one training

Suggestions to enlarge the project in the future

- More cooperation are recommended
 - with DNFE, including NFE centers and CLCs
 - with the Labor Ministry
 - with schools to sell products
- Sharing workshop on mobile skills trainings with all stakeholders
- Capacity Building for IVET schools in various aspects of managements (e.g. needs assessment) and teaching
- Funding from national sources

**Thank you very much for
your attention!**
