Title: Evaluation of the Program of DVV International in Morocco

Country: Morocco

Financing phase: 2017 – 2019

Evaluation period: 2014-2019

## Questions and Answers

1. Is a quantitative data collection (really) requested and if so, will it be possible to conduct an online survey and approach the target group in English or French? If an online survey is not feasible, what other possibilities does DVV international offer to implement the survey?

**Answer:** A quantitative and qualitative approach is requested. An online survey, developed at headquarters, can reach the target group with support from the organizations that deliver services to them (funded by DVV International). This is a chance for us to digital-capacitate our target group.

2. What are the destinations of the field phase? Fes and Rabat only or will other destinations also be considered? If so, which?

**Answer:** DVV International Morocco covers several geographical areas under the SSF funding (Tangier, Rabat, Casablanca, Marrakech, and Fes) but for the purpose of this exercise, the evaluator may travel to a maximum of three areas that provide relevant content. (This is to be discussed further with the team).

3. Can we assume that all interviews and workshops required for the evaluation will be conducted in English or French? If not, will the Morocco DVV International office provide Arab translation for the interviews that will have to be carried out in Arab?

**Answer:** French is widely spoken by organizations' leaders and key staff but we may face the issue that the beneficiaries of our micro level activities do not speak French. In that case, we would certainly assure the translation.

4. Can it be assumed that the DVV International country office in Morocco will support the organization of interviews and workshops?

**Answer:** The team will be at the disposal of the evaluator to arrange for 1:1 interviews, field visits, workshops, provided she/he communicates early enough the organizations/key persons she/he wants to have invited.
